I am a D4 Informatics Engineering graduate focused on Software Engineering, specializing in Mobile Development (Flutter, Dart, Kotlin) with complementary skills in Web Development (Next.js, Laravel). Demonstrated practical experience developing an ERP-integrated Point-of-Sale (POS) application during an internship at RUN SYSTEM. Highly committed to applying Clean Architecture principles across all projects and proficient in utilizing BLoC state management within the Flutter ecosystem to ensure clean, scalable, and maintainable codebases. Eager to collaborate within dynamic engineering teams to deliver high-quality digital products while continuously exploring cross-platform technologies.

Work Experience

Mobile Developer Intern – **RUN System (PT Global Sukses Solusi)**
Aug 2025 - Dec 2025

- Contributed to the development of the Accounting+ ERP system by building mobile and web-based modules.
- Developed a mobile-based Point of Sale (POS) add-on application using Flutter.
- Transitioned to frontend web development to build the Project Management sub-module.
- Collaborated effectively within the development team to deliver features within the internship timeframe.

CNC Operator Intern – **Fajar Teknik Moulding**
Jan 2021 - May 2021

- Operated and maintained CNC machines to ensure efficient production processes.
- Performed routine maintenance and troubleshooting to minimize downtime.
- Monitored machine performance and adjusted settings for optimal precision.
- Ensured quality control by inspecting finished products according to specifications.

Projects Experience

POS Accounting+ - Add on POS System on ERP Accounting+
Aug 2025 - Dec 2025
Run System
Mobile Developer

- Engineered a mobile POS application using Flutter and Dart to facilitate seamless transactions within the Accounting+ ERP ecosystem
- Developed comprehensive user features including secure login, interactive dashboard, dynamic product catalog, and advanced product search and filtering.
- Implemented robust transaction processing flows, including transaction details and history tracking management.

Module Manajemen Proyek - Sub Module System ERP Accounting+
Aug 2025 - Dec 2025
Run System
FrontEnd Developer

- Assisted in the frontend development of the Project Management module using Next.js and TypeScript.
- Successfully implemented full CRUD (Create, Read, Update, Delete) functionalities specifically for the Contract management feature.

ExploreNesia – AI based Smart Tourism Platform (MBKM) -
Jul 2024 - Dec 2024
Politeknik Negeri Jember
AI Research Assistant

- Assisted in data collection and preprocessing for AI model development.
- Conducted accuracy testing on the Naïve Bayes model.
- Performed confusion matrix analysis to evaluate model performance.

Kampsewa (Marketplace Outdoor Rental) -
Feb 2024 - Jun 2024
Politeknik Negeri Jember
Mobile Developer & Project Manager

- Spearheaded the development of KampSewa, a mobile marketplace for renting and leasing outdoor gear.

- Designed and implemented key features such as product search, booking system, and secure payment integration using Flutter.
- Led cross-functional teams, ensuring project milestones were met efficiently.

Achievements: Awarded Best Video (2nd Place) and Best Poster (3rd Place) at TIF Exhibition 2024

SI-Brownies - **Politeknik Negeri Jember**

Mobile Developer & Project Manager Jul 2023 – Dec 2023

- Developed a mobile application using Java and built the backend with PHP & MySQL.
- Implemented secure authentication and order processing to improve user experience.
- Managed database optimization to ensure efficient inventory and transaction handling.
- Managed the development team, overseeing project execution and delivery

Achievements: Favorite Stand Award at TIF Exhibition 2023

Education Level

Politeknik Negeri Jember - **Jember, Jawa Timur** Sep 2022 - Jul 2026

Informatics Engineering, 3.90/4.00

Vocational High School 1 Jetis - **Mojokerto, Jawa Timur** Jul 2019 - May 2022

Industrial electronics engineering , 84.18/100.00

Skill, Licenses & Certifications

- **Skills**: Word, Excel, Powerpoint, Dart, Java, Beginner Kotlin, Beginner Python, HTML, CSS, PHP, TypeScript, Laravel, Flutter, Next Js, SQL.
- **Language**: Indonesian (Native) and English (Basic)
- **Licenses** g (2026): Badan Nasional Sertifikasi Profesi (BNSP) Web Developer No.Reg. TIK 496 00001 2026
- **Licenses** g (2024): Badan Nasional Sertifikasi Profesi (BNSP) Junior Mobile Programmer No.Reg. TIK 1565 27540 2024
- **Certificate** g (2026) Politeknik Negeri Jember: English Proficiency Test (EPT)
- **Certificate** g (2025) Digitalent: Junior Mobile Programmer
- **Certificate** g (2025) Dicoding: Learn AI Basics
- **Certificate** g (2024) Dicoding: Getting Started Programming in Python
- **Certificate** g (2024) Dicoding: Learn Basic Data Visualization
- **Certificate** g (2022) Coursera: IT Support Google
- **Certificate** g (2022) Coursera: IT Security: Defense against Digital Crime
- **Certificate** g (2022) Coursera: The Ins and Outs of Computer Networks
- **Certificate** g (2024): 3rd-place winner in the Best Poster Category at the Website and Mobile-based TIF Exhibition Events
- **Certificate** g (2024): 2nd-place winner in the Best Video Category at the Website and Mobile-based TIF Exhibition Events
